

dear sirs,

My name is Joe and I live in northwest ohio. I like the local traffic updates that I get with my local radio stations, But I do go to detriot, MI a couple of times during the year. Thus satellite radio suits me best when travelling. That is why i feel it is a disservice to take the traffic and weather that people need! Besides what would be next commercial free radio? And I thought that this was a FREE COUNTRY!! comptition is good, SO LET'S KEEP IT THAT WAY!!!
